BRIEF ABSTRACT OF LETTER.

NOTES—First Sheet.

The question of training a large no of persons in all the three grades of technical and professional subjects is engaging the ~~active~~ attention of Govt. In this connection I beg to suggest that full advantage may be taken of the facilities offered by the International Correspondence Schools scheme. It does not appear that full advantage has been taken of the concessions granted by Govt. in their order no 1522-3 E.M. 37-14-1 of 8th Aug. 14.

Ha:

Further the order provides for training only six officers, of course as a beginning in this direction. It is now time to extend the concessions to non-officials and officials^{also}. It is suggested that six officers, twelve officials and twelve non-officials making a total of thirty in all may be permitted at a time to take the benefit of the course.

If the idea is approved, further details will be worked out. The advance to non-officials may be made on taking proper security from them. The risk involved cannot be great as the amount to be advanced to each may not be large.
